

Nutra Green®

5-10-5 + Chelated Micronutrients

Benefits of NUTRA GREEN®

NUTRA GREEN® is a unique and True All Purpose fertilizer. Many other products use this word "All Purpose" but may mislead consumers. **NUTRA GREEN®** contains the essential nutrients needed by the plant in a completely balanced, organic-based formula, ideal for optimal plant development. It is used all around the world in Agriculture and is excellent for all horticultural plants as well as vegetable gardens. **NUTRA GREEN®** contains high balanced concentrations of micro-nutrients compared to other all purpose fertilizers.

- **Excellent Greening and Color Of Plants:** **NUTRA GREEN®** has been found to be one of the strongest and most effective organic-based foliar products on the market today. Major Resorts, Agriculture, Agronomists and Horticulturists rely on its effectiveness. Green-up without rapid growth: **NUTRA GREEN®** contains a unique proprietary combination of plant-based amino acids, organic acids and carbohydrates. Quick visual response: The chelated and complexed nutrients contained in **NUTRA GREEN®** are rapidly absorbed into plant tissue to provide a rapid and sustained green-up.
- **NUTRA GREEN®** also contains secondary nutrients (magnesium and sulfur) and a full range of micronutrients (iron, zinc, manganese, copper and boron) which are 100% chelated to alleviate most deficiencies.
- Iron, zinc and manganese deficiencies are very common in calcareous or high pH soils. The plant may yellow due to iron, zinc or manganese deficiencies. Nitrogen will not correct the problem; only proper nutrition will restore the natural green color and vigor of plants.
- **Helps with Plant Stress Tolerance:** **NUTRA GREEN®** provides the plants with high levels of phosphorus and potassium, which increases plant's tolerance to many stress conditions. There are also some indications by researchers, that phosphorus and potassium play a key role in reducing disease infections.

GUARANTEED ANALYSIS

Total Nitrogen (N)	5.0%
2.5% Ammoniacal Nitrogen	
0.8% Nitrate Nitrogen	
1.7% Urea Nitrogen	
Available Phosphate (P2O5)	10.0%
Soluble Potash (K2O)	5.0%
Magnesium (Mg).....	1.0%
Boron (B)	0.1%
Copper (Cu)	0.1%
Iron (Fe)	1.0%
Manganese (Mn).....	0.5%
Zinc (Zn)	0.1%

APPLICATION RATE CHART

ONCE A MONTH	2 Tbs into 1 Gallon of Water - 1oz (29 ml into 3.75 liters)
TWICE A MONTH	1 Tbs into 1 Gallon of Water - 1/2oz (15 ml into 3.75 liters)
EACH WATERING	1 tsp into 1 Gallon of Water (5 ml into 3.75 liters)

Conversion of liquid measurement:

1 Tablespoon = 3 teaspoons = 1/2 fl. oz. = 14.75 ml
2 Tablespoons = 6 teaspoons = 1 fl. oz. = 29.5 ml • 1/4 cup = 2 fl. oz. = 59 ml

SOIL APPLICATION: See the chart above to determine application rates. Thoroughly soak soil around plants root zone with correct dilution.

FOLIAR APPLICATION: See the chart above to determine application rates. Do not apply as a foliar in drought conditions.

- 1) Apply as a foliar early in the morning or late in the evening.
- 2) If using a dial hose end sprayer pour **Nutra Green™** into spraying device and set at proper dilution ratio depending on desired application.
- 3) Best if not watered for at least 24 hours to avoid washing off fertilizer. This allows uptake of nutrients into the leaf.
