

Gene's Turf Booster™

19-2-2 + Iron

Gene's Turf Booster™ has been formulated for grasses and turf. It contains three forms of nitrogen as well as phosphorus, potassium and iron, which are in a form (chelated) to be readily utilized by the plant. This in essence gives a "True Deep Green Color" which lasts for weeks without rapid growth.

In "**Gene's Turf Booster**" the micronutrients have been chelated 100% with organic and amino acids, which are found naturally in the plant. These also act as "Facilitators" to enhance translocation, as well as penetration, through the waxy leaf cuticles in plants.

GUARANTEED ANALYSIS

| | |
|----------------------------------|-------|
| Total Nitrogen (N) | 19.0% |
| 3.8% Ammoniacal Nitrogen | |
| 3.4% Nitrate Nitrogen | |
| 11.8% Urea Nitrogen | |
| Available Phosphate (P205) | 2.0% |
| Soluble Potash (K2O) | 2.0% |
| Iron (Fe) | 1.0% |

The turf results you have been dreaming about.

APPLICATION RATE CHART

ONCE A MONTH | 2 Tbs into 1 Gallon of Water - 1oz. (29 ml into 3.75 liters)

TWICE A MONTH | 1 Tbs into 1 Gallon of Water - 1/2oz. (15 ml into 3.75 liters)

EACH WATERING | 1 tsp into 1 Gallon of Water (5 ml into 3.75 liters)

Conversion of liquid measurement:

1 Tablespoon = 3 teaspoons = 1/2 fl. oz. = 14.75 ml

2 Tablespoons = 6 teaspoons = 1 fl. oz. = 29.5 ml • 1/4 cup = 2 fl. oz. = 59 ml

FOLIAR APPLICATION: See the chart above to determine application rates.

- 1) Apply as a foliar early in the morning or late in the evening.
- 2) If using a dial hose end sprayer pour **Gene's Turf Booster™** into spraying device and set at proper dilution ratio depending on desired application.
- 3) Best if not watered for at least 24 hours to avoid washing off fertilizer. This allows uptake of nutrients into the leaf.
